

## **Trustee election Candidates AGM 19<sup>th</sup> June 2019**

**The following are all existing Trustees who are standing for re-election.**

### **James Burbidge**

I have farmed the land adjoining the woodland for over 50 years and my father before me.

I have seen many changes since farming with heavy horses to the modern day.

My many years of rural experience and deep understanding of country life makes me passionate to protect the wildlife and fauna in the woodland.

I am a keen supporter of Uddens & Cannon Hill Friends and feel my rural experience will be of value to the committee.

### **Andy Hartstone**

I have been involved in the organisation since the start.

I organise the volunteer task days and look after the online presence for the group.

I believe it is important to protect the woodland for future generations and the best way to do so is by promoting balancing the needs of all users and of course the wildlife.

### **Lin White**

My family have lived and farmed adjacent to the area for six generations.

We have always nurtured and respected the ecology of the land and the life force it supports by farming without chemicals and allowing our livestock to live free from constraints in a natural environment wherever possible, which has always blurred the boundaries from the forestry to our land.

I am an original member of the Trustees and remain fully committed to continuing to support the Friends in their endeavours to maintain the forest for future generations to enjoy as unspoilt as it is today.
